GRAPHIC & FRONT-END WEB DESIGNER

ABOUT ME

I have nearly 10 years of experience in graphic, marketing, print, and website design within corporate, startup, agency, and freelance environments. I am currently the owner of my own LLC as a freelancing designer working with several clients across all industries on a monthly or as-needed basis on projects across my entire skill spectrum. I am seeking additional clients and/or a part-time graphic support position - also open to discussing the right remote full-time fit as well. I currently have a preference of remote work only.
